

Dolev Atik

Software Developer | DevOps Engineer | AI Systems

050-923-7173 | dolev5454@gmail.com | [Portfolio](#) | [LinkedIn](#) | [GitHub](#)

Summary

Software Developer with practical experience in **DevOps** and **AI applications**, currently pursuing a **B.Sc. in Computer Science (GPA 93)**. Proficient in **Python, Java, Docker, Kubernetes, GitHub Actions**, and modern **backend technologies**. Co-founder of a web development business, delivering **20+ production websites** and **software solutions** for clients. Experienced in building **AI-powered systems**, developing **full-stack applications**, and implementing **CI/CD pipelines** using modern **cloud-native technologies**. Strong foundation in **Algorithms, Data Structures, Operating Systems**, and **Databases**, combined with hands-on experience designing and deploying **end-to-end applications**.

Technical Skills

- **Programming:** Python, Java, JavaScript, SQL, C++, Bash
- **Software Development:** Object-Oriented Programming, Data Structures, Algorithms, REST-API, Full-Stack Develop
- **DevOps & Cloud:** Docker, Kubernetes, ArgoCD, GitHub Actions, CI/CD, Linux, GitOps, Containerization
- **AI & Intelligent Systems:** LangChain, RAG Systems, Ollama, Embeddings, Prompt Engineering, LLM Integration
- **Databases & Tools:** PostgreSQL, MongoDB, ChromaDB, Supabase, Git, GitHub, Postman

PROFESSIONAL EXPERIENCE

2025-Present | Web Developer & Co-Founder | [Web4You](#)

- Engineered and delivered 20+ production web applications for clients, transforming business requirements into scalable software solutions.
- Architected backend services, databases, authentication systems, and REST API integrations to support secure and scalable business applications.
- Led the complete software development lifecycle, from requirements analysis and system design to deployment, testing, and long-term maintenance.

PROJECTS

Cloud-Native CI/CD Platform | Kubernetes, Docker, ArgoCD, GitHub Actions

- Designed and implemented an end-to-end **GitOps-based CI/CD pipeline** using **Docker, Kubernetes, GitHub Actions, and ArgoCD**, automating application build and deployment.
- Deployed and managed a **cloud-native application** on **Kubernetes**, enabling continuous delivery through **ArgoCD** while applying **containerization** and **infrastructure automation** practices.

[AI RAG Agent PDF](#) | Ollama, LangChain, ChromaDB, Flask

- Developed an **AI-powered RAG application** for intelligent PDF question answering using **LangChain** and **Ollama**.
- Implemented **document chunking, embeddings, and vector search** with **ChromaDB** for accurate retrieval.

EDUCATION

B.Sc. Computer Science, Ramat Gan Academic College | 2023 – Present

- **GPA: 93, Expected Graduation:** Oct 2026

DevOps Engineering Certificate, SV College | 2025-2026 (In progress)

- Cloud Infrastructure, Infrastructure as Code, Container Orchestration, Deployment Automation, final project

Military Experience

Commando Brigade 89 | Satellite Communications & Systems Specialist | 2019 – 2021

- Operated and maintained **satellite communication systems**, ensuring reliable connectivity during operations.
- Provide **technical support, troubleshooting, and training** for communication systems used by elite military units.
- Awarded **outstanding soldier** by the chief of central communications and electronics division
